### **About myTomorrows:**

myTomorrows is a digital platform that helps patients and physicians discover and access treatments. The platform enables a comprehensive search of databases worldwide to provide patients and physicians with possible pre-approval treatment options. myTomorrows also offers biopharmaceutical companies services such as clinical trial recruitment support, international expanded access programs management and real-world data collection and utilization. Headquartered in Amsterdam with an office in New York City, myTomorrows has helped more than 11,000 patients and 2,000 physicians in over 40 countries.

## Key people:

### **Ronald Brus, MD**

Founder

Ronald Brus is a physician with a passion for the biopharmaceutical industry, and the founder of myTomorrows. He is also the co-founder and CBO of Leyden Labs, a company targeting commonalities of respiratory viruses to protect against known and future viral outbreaks.

He spent 14 years at Crucell, a biotechnology company specializing in vaccines, serving in various roles including CEO, COO, CBO, and EVP of business development. Dr. Brus also formerly served as a member of the executive committee for Galapagos.

Dr. Brus earned his medical degree from the University of Groningen.

---

### **Michel van Harten, MD**

CEO

Michel van Harten is the visionary CEO at the helm of myTomorrows, driving the company towards a brighter future.

Michel earned both his BSc in Economics and his Medical Degree at the University of Amsterdam. He worked as a physician at the Antoni van Leeuwenhoek Hospital, a specialized cancer hospital and research institute in the Department of Surgical Oncology.

As a physician, with more than 15 years of experience in the healthcare and pharma industry, Michel possesses a deep understanding of the challenges that patients and healthcare providers face.

---

### **Dennis Akkaya**

Chief Commercial Officer

Dennis Akkaya, myTomorrows Chief Commercial Officer, has worked with the BioPharma industry for over 15 years and has been with myTomorrows for 8. After a decade in European biotech companies, Dennis took an opportunity to use his experience to help those affected by disease after experiencing it within his own family.
